Make a heart-shaped hanger

Jesus said Christians are like branches in a plant, and he is like the stem who gives us life. One of the fruits that shows in us is love. Here's a heart-shaped hanger you can make to help you remember this.

You will need:

- Coloured paper
- A pencil
- Scissors
- String
- Sticky tape
- Glue

What to do:

Fold the coloured paper in half lengthways so you have a double layer. Then draw a heart shape on the folded paper. Use scissors to cut out the heart shape so that you have two matching paper hearts.

Make a loop of string at the top of one heart and tape the ends to the middle of the paper heart to hold the string securely. Then cover that side of the heart with glue. Stick the matching paper heart to it so that you have a double-sided heart with string coming out of the top.

You may like to decorate your heart hanger, then hang it up to remind you of Jesus' love.
